

Indiana telephone privacy law should not be changed. I do not want unsolicited telephone calls from anyone! I have a condo in Florida and have been getting 2-3 calls a day from banks (at least a computer voice saying they are calling for a bank) wanting to send me a new credit card or refinance my condo. I don't want to have the same thing happen in Indiana!!! If I need a new credit card or refinance a loan I will call a bank. I would not buy anything from an unsolicited telephone call, even if I needed the product they were selling, since it would probably be a scam.
